About Company

About The Company

Founded in 2010, Indian Quality Industries is based in Rudrapur, Uttarakhand, India. We serve pan India since 2016. We are a world-class Steel Engineering, automation, electrical work, construction and other engineering work in the industry. Quality is inherent in everything we do hence our motto is to strive for best quality every day. We are a team of skilled people with great experience in the industry.

Vision

To make Indian Quality Industries a world-class steel fabricator and best-in-class construction service provider preferred by clients in the industry for projects around the globe while creating value for all our stakeholders.

Mission

01

Help organizations around the globe with construction projects and steel engineering works.

02

Never lose creativity and never stop striving for better quality every day

03

Serving international clients with great zeal and full customer satisfaction.

04

Enable our employees to love what they do while we care for them and value their work.

Strengths

- Innovative Mindset
- Strong Brand Image
- Best-in-class quality
- Skilled workforce
- More than 12 years of experience

Challenges

- Rising Product Input Costs
- Government Policies and Regulation
- Material Quality and Standards

Our workplace

Thank You

Because, we're here to help

We are hoping to cross INR 1 Cr+ monthly turnover in the near future. We are thankful to (Schneider Electric, Dana India, V Guard Ltd., and all other partner organizations) some of our early customers who believed in us for their projects. We assure you that we will never forget our motto.
